Dear [REDACTED]

There is an important election on **Tuesday, November 3.**

Here are a few reminders about voting:

Your ballot is secret. No one is allowed to see your vote choice.

Voting booths provide a private place for you to fill out your ballot. You place your ballot into a locked voting machine or ballot box without anyone else looking at it.

Voting is free of intimidation of any kind. A set of rules is enforced at each voting location to ensure that voters are comfortable casting their ballots for whomever they prefer. Poll workers are not permitted to ask who you voted for.

Voting in the November 3 General Election

Early In Person: From October 15-31 at 3PM.

Election Day In Person: Polls open from 6:30AM-7:30PM.

By Mail: Your ballot must be received by November 3.

Return Ballot In Person: Return it to an early voting site or your county board of elections by 7:30PM November 3.

Visit NCsbe.gov/Voting to check your registration status and find polling locations, times, and other information on how to vote.

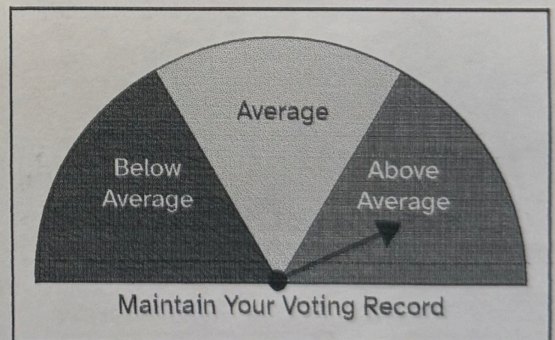

Remember, who you vote for is private, but whether or not you vote is public record.

Compared to other voters in your state, your voting record is **ABOVE AVERAGE**.*

If you already voted, thank you!

Sincerely,

Tom Lopach, President
Voter Participation Center

P.S. To better understand why people do or do not vote, we may call you after the election to discuss your voting experience.

*Your participation score was calculated by the Voter Participation Center using data from publicly available state voter files.
